SALARIES

Your EEA Bargaining Team went to the bargaining table with the District last night in hopes that the District was finally going to bring a decent salary proposal. Unfortunately, that was not the case. The District's only change in salary was adding \$200 to the Grandfather Schedule Longevity Supplement for a total. After a caucus with the Bargaining Team, we were able to pass a counter proposal. Your team reiterated that the district left the table last year with a commitment to look for solutions this year and even with all of the concerns about their financial status the District's fund balance increased by \$2.1 million last year. It is time that the District puts some real money on the table.

CLASS COVERAGE

We are very close to reaching an agreement on compensating teachers for covering classes due to the substitute shortage and are hopeful to have an MOU soon.
